WIHURI RESEARCH INSTITUTE SYMPOSIUM

In collaboration with Aerpio Therapeutics

Targeting vascular leak, inflammation and atherosclerosis

August 22-23, 2016, Biomedicum Helsinki, Finland

PROGRAMME

August 22 Vascular Tie2/Tek targeting in disease

Chair Pipsa Saharinen

12:00-13:00 Biomedicum Helsinki Seminar, Lecture Hall 1

Susan Quaggin, Chicago: "Under Pressure" –
"High Tek" Solutions for Diabetic Complications

Registration

13:00-14:00 Lunch in P-floor, B-wing, and poster viewing and coffee, C-wing

Lecture Hall 3

14:00-14:30 Peter Campochiaro, Baltimore: Tie 2 in Diabetic Retinopathy

14:30-15:00 Samir Parikh, Boston: Tie2 as a rheostat in infection

August 23 Endothelial cells and atherosclerosis

8.55-9.00 A few words about the Wihuri Research Institute

Chairperson Kari Alitalo

09.00-09.40 Luisa Iruela-Arispe, Los Angeles: Interface of flow and metabolism in the regulation of vascular homeostasis

09.40-10.20 Hellmut Augustin, Heidelberg: Role of Ang/Tie signaling during atherosclerosis progression

10.20-10.50 Coffee break

Chairperson Petri Kovanen

10.50-11.30 Arnold von Eckardstein, Zürich: Interactions of HDL with the endothelium

11.30-12.10 Lars Bo Nielsen, Copenhagen: Lowering plasma cholesterol acutely changes the metabolism of LDL within atherosclerotic lesions

12.10-12.30 Katariina Öörni, Helsinki: LDL instability is a novel modifiable biomarker that predicts future cardiovascular deaths

The symposium is free of charge for participants.

Registration is required. Lunch and coffee included for registered participants.

Registration deadline is 12.8.2016

Registration: <https://elomake.helsinki.fi/lomakkeet/60595/lomake.html>

Symposium organized with DPBM - <http://www.helsinki.fi/dpbm/>

Students can receive ECTS credits.
